

The National Every 15 Minutes Organization, St. Luke's Hospital and R.E.A.L. Impact, Inc. cordially invite you to attend the Certified Every 15 Minutes Coordinators Training.

Life's lessons are best learned through experience. Unfortunately, when the target audience is teens and the topic is drinking and driving, experience is not the teacher of choice. This emotionally charged program, entitled EVERY 15 MINUTES, is an event designed to dramatically instill teenagers with the potentially dangerous consequences of drinking alcohol.

This 1-day powerful workshop will prepare participants to coordinate an Every 15 Minutes in their own community. The workshop is designed for the agency or organization hosting the Every 15 Minutes Program. The Every 15 Minutes Coordinators Training will prepare you for a genuinely rewarding program.

The National Every 15 Minutes Organization is a collaborative effort by certified law enforcement officers, emergency medical services, hospitals, educators, students, parents, businesses and the community to offer the Every 15 Minutes Program in high schools across the county.

*Typically, the courses fill quickly to capacity.
Registration date will be based on postmark.*
